

NEW THINKING.  
NEW POSSIBILITIES.

NEW GENERATION HYUNDAI *i30*

BORN IN GERMANY.

BUILT IN EUROPE.

# CREATED TO A HIGHER QUALITY STANDARD.

Introducing the new generation Hyundai i30. Designed and built in Europe for elevated quality beyond its class, and a focus on exceeding the demands of the European driver, starting with a highly developed sense of style inside and out. Its powerful flowing lines, striking appearance, and generously appointed interior make one point clear: the new i30 is anything but mainstream.

# BUILT WITH CARE IN EUROPE.

A new era of quality from the heart of Europe. Every i30 model is built at our state-of-the-art manufacturing facility in Plošovice, Czech Republic. With €1 billion in total investment and a skilled workforce of 3,400, the Plošovice plant represents the height of quality assurance and control – to ensure a flawless ownership experience for years to come.

# REINFORCED BY HYUNDAI STEEL.

Every detail of the i30 is built to last. That begins with strenuously tested high-tensile steel, forged in our own environmentally-friendly factory to meet our exacting standards. Among the advantages are greater strength for occupant safety, advanced production techniques to minimise weight and maximise fuel efficiency, plus extreme climate testing to ensure lasting protection against rust and wear.

# REALISED BY THE POWER OF TEAMWORK.

Creating the i30 in Europe offered a host of design advantages. By centring the entire development of the i30 in one region, our design and build teams were able to collaborate more closely at every point in development, from first concept to final assembly and quality control. The result is a European partnership of talent that sets a new benchmark in quality and efficiency.

# CONFIDENCE YOU CAN FEEL.

This is where the i30 driver feels most at home. From the comfortable driving position and generously appointed seats to innovative cockpit aesthetics and advanced technology, every aspect of the interior brings the driver in closer harmony with the i30. The result is awe-inspiring. The driver feels at one with the road, more relaxed and focused. So even the longest drive is enjoyed in total comfort.

# QUALITY YOU CAN TOUCH.

The i30 is a car that stimulates all of your senses. Higher quality materials and true attention to detail create a rich feeling of exclusivity throughout the cabin. From the confident weight of the dials to the supple texture of fabrics and covers, every component has been created to heighten appeal and provide a sensory experience unlike any car in its class. For the driver and passengers alike, the i30 always makes a strong first impression that lasts.

# MAKE ANY JOURNEY MORE EXCITING.

Europe has some of the most diverse roads in the world. From long, straight motorways to razor-sharp mountain bends, the i30 makes every drive more spirited and fun. Its dynamic handling and smooth acceleration offer pure driving pleasure on every type of road – all delivered via a choice of engines that combine inspired performance with lower emissions and greater economy.

# ALWAYS TAKE ALONG PEACE OF MIND.

Wherever the road takes you, you'll never drive alone. Superior build quality and rigorous testing ensures that your i30 will always be a trusted daily partner. You also have the confidence of our comprehensive 5-Year Triple Care package, featuring a 5-year unlimited mileage warranty plus five years of free roadside assistance and annual vehicle health checks.

# CONTROL EVERY TYPE OF ROAD.

Different driving situations call for different feedback. This is why the i30 offers the option of FLEX STEER™ power-assisted steering with three response levels. Normal mode provides a fine-tuned response to city and country roads. When parking, Comfort mode makes tight spaces easier to handle. Then switch into Sport mode for fast, direct input at high speed. Each is available via a button on the steering wheel.

# ENJOY EVERY BEAUTIFUL CURVE.

**Winding turns and long bends are where the i30 shines.** A highly refined chassis minimises body roll while providing exceptional response and feedback, allowing you to react to the road with confident ease. Take a curve, and the standard Electronic Stability Programme with Vehicle Stability Management helps you maintain a perfect line. The i30 is driving exhilaration on a new level.

# GREATER PROTECTION WITH BRILLIANCE.

The i30 places safety in a whole new light. LED daytime running lights are standard, with the option of xenon headlamps featuring an Adaptive Front Lighting System. To help prevent rear collisions, an emergency brake signal is standard, plus optional LED rear lights for increased visibility. Even the outside mirrors and door handles can include spotlights for safer passenger entry and exit.

# IMPROVED EFFICIENCY WITH POWER.

It's time to accelerate beyond compromise. Each of our six engines combines refreshing city and highway performance with fewer emissions. All i30 engines also offer the option of our innovative Blue Drive™ technology for even greater fuel economy. That includes a high-torque four-cylinder 1.6 litre diesel capable of 128 PS, yet with CO<sub>2</sub> emissions of only 97g/km.

# COMFORT BEYOND COMPARE.

Compact on the outside, generous on the inside. Every aspect of the i30 interior is designed to elevate quality as well as individual style. Richly appointed leather or cloth seats are available with heating and power options. Dual-zone air conditioning allows each passenger to set their ideal temperature. Even entertainment is enhanced with a 6-speaker audio system including CD and MP3 player.

# EXTRA FLEXIBILITY WHERE IT COUNTS.

Take everything you need for the ride. Via intelligent ergonomics, the i30 offers spacious head, shoulder, and leg room for all passengers, plus an impressive 378 litres of cargo room with the rear seats in place. Fold them down, and the optional full-flat cargo floor delivers an incredible 1,316 litres of luggage space, giving you the freedom to carry the largest items with ease.

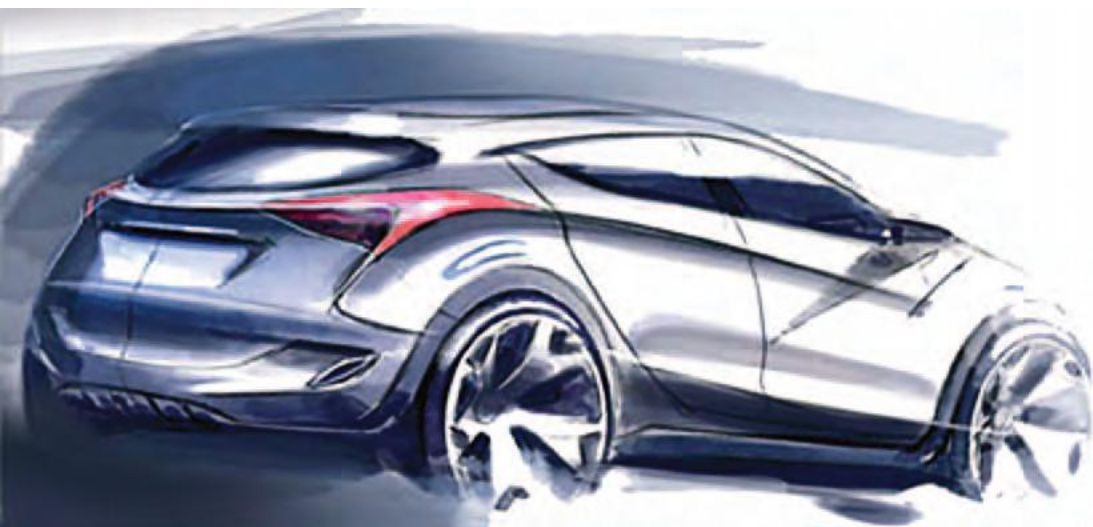

# BORN IN GERMANY.

The goal was to revolutionise automotive design. To realise it, we came to the country that created the automobile. A hand-picked European design team was given a single challenge: Take the new generation i30 far beyond the expected to elevate style and strike the eye with dynamic, flowing energy inside and out. A new Hyundai born for the roads of Europe – yet destined to turn heads around the world.

# DESIGNED WITH PRIDE IN RÜSSELSHEIM.

A new philosophy from the heart of Germany. The Hyundai studio set out to give the i30 an unmistakable European character evolved from the award-winning ix35, ix20, and i40. Guiding the team was a bold Hyundai design language called Fluidic Sculpture. Inspired by the flow and form of nature, this concept defined each stage of development. The result is a far more powerful look, with greater flexibility throughout.

# MORE EMOTIONS.

No other car in its class will move you like the i30. An all-new range of advanced engines lets you select the ideal level of performance, including a 1.6 litre Gasoline Direct Injection (GDi) gasoline engine with 135 PS and lower CO<sub>2</sub> emissions. All i30 engines are matched to a 6-speed transmission as standard.

# LESS EMISSIONS.

**Greater efficiency has never been so rewarding.** From the start, the i30 was designed to raise the bar of fuel economy and efficiency. When combined with Blue Drive™ technology, our 1.6 litre diesel engines reduce CO<sub>2</sub> emissions to only 97g/km, while delivering outstanding power and acceleration.

## Gasoline engine

---

The i30 gasoline range starts with an efficient Gamma 1.4 litre that provides 100 PS. Our mid-range choice is a smooth Gamma 1.6 litre MPI (Multi-Point Injection), capable of 120 PS. Leading the pack is our Gamma 1.6 litre GDI (Gasoline Direct Injection), delivering a strong 135 PS. Each engine features an all-aluminium ladder frame construction for improved durability and reduced noise.

## Diesel engine

---

The i30 diesel range starts with a smooth 1.4 litre that provides 90 PS. Also available are two high-torque diesel engines: a 1.6 litre low output with 110 PS and a 1.6 litre high output that delivers an impressive 128 PS. Every i30 diesel features an all-aluminium ladder frame construction for improved durability and reduced noise, plus a diesel particle filter as standard.

For the good of the environment, all i30 engines include parts designed for higher recyclability, such as an ashable oil filter and plastic cylinder head covers.

**Maximise fuel economy with Blue Drive™.** Our optional Blue Drive™ technology adds a wealth of features to increase the efficiency of your i30 even more. Blue Drive™ technology includes low rolling resistance tyres for leaner fuel consumption, an alternator management system for reduced energy use, and an Integrated Stop & Go system. This cuts the engine when the car is at a standstill, then instantly resumes power when you hit the accelerator.

# 9-AIRBAG SAFETY AS STANDARD.

When it comes to protection, the i30 never compromises. From the start, the i30 was designed to lead its category in occupant safety. At the centre stands a 9-airbag system able to surround every occupant in the event of a collision. A combination of front, side, and curtain airbags protects the front and rear passengers, while an optional knee airbag provides added safety for the driver.

## Front, side, and curtain airbags as standard.

Two front airbags, two side airbags, and four curtain airbags work in a fully integrated system to greatly reduce the risk of serious injury. A passenger airbag cut-off switch is also standard, so babies are safe when on board.

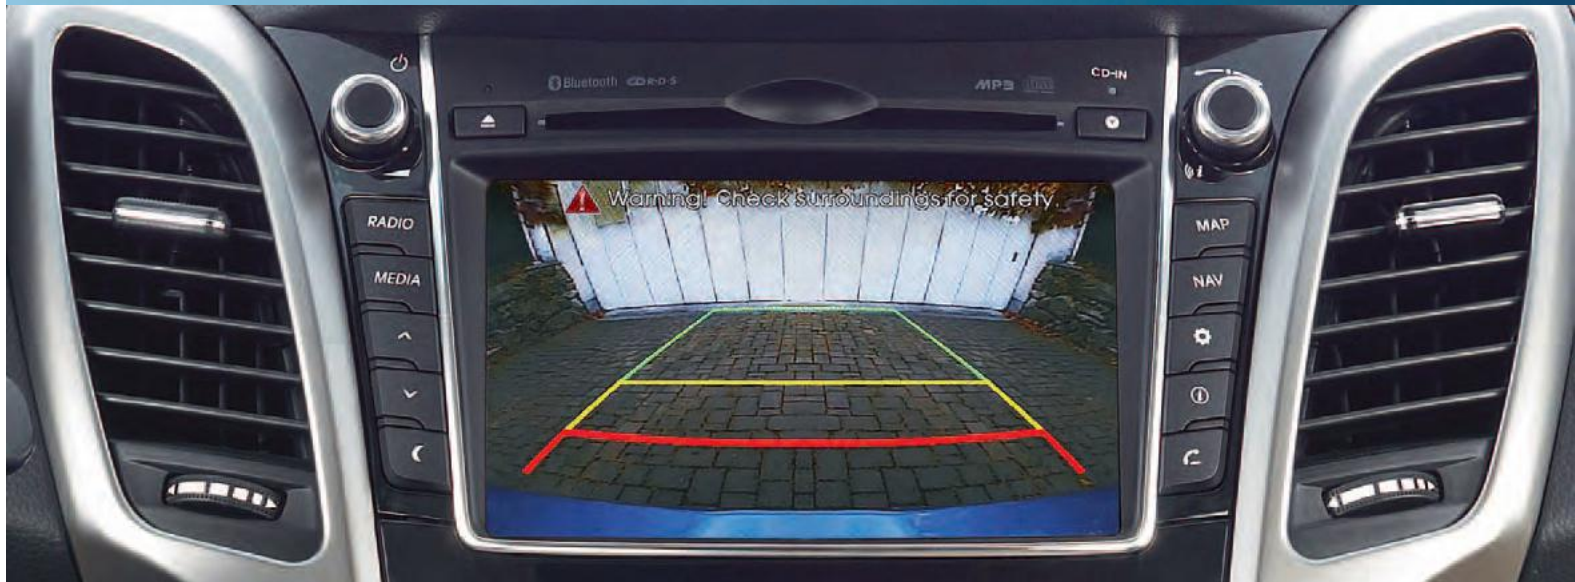

## Driver side knee airbag.

An optional knee airbag below the steering column offers extra protection to the driver's legs in the event of a major frontal collision.

# A CAMERA FOR EXTRA PEACE OF MIND.

Obstacles behind you are often the most difficult to see. To improve your vision, the i30 offers the option of a rear view camera. As soon as you select reverse gear, a wide angle colour picture appears on the navigation screen, or in the rear view mirror if navigation isn't fitted. If there is an object behind you, at any time, a warning signal will sound. The picture even includes a graphic overlay to make parking easier.

**Hidden brilliance.** The i30 cleverly hides the rear view camera under the Hyundai badge for protection from dirt, while sending a wide-angle picture directly to your navigation screen or rear view mirror. If there is an object behind you, at any time, a warning signal will sound. The picture even includes a graphic overlay to make parking easier.

# POETRY IN MOTION.

**The art of Fluidic Sculpture.** The i30 takes our signature Hyundai design language to a new level of style and grace. Clean, tapered lines circulate around the body to exude a sense of motion even when the i30 is standing still. Throughout the profile, sculpted forms play with light and shadow to create tension and elevate emotion – all with a more athletic stance that adds to the European handling and comfort.

# BEAUTY IN NATURE.

**Say hello to blue skies.** When the sun comes out, enjoy an extra reason to take your i30 for a ride. Just flick a switch, and the optional twin-panel panoramic roof instantly retracts to bring warmth and sunlight into the cabin, while creating a brilliant open-air driving experience. If the wind starts to blow, the automatic deflector will keep your hair perfect.

# VIEW SAFETY IN A NEW LIGHT.

The i30 offers an expanded choice of lighting features. For greater safety from the start, LED daytime running lights and rear lights that automatically flash during hard braking are standard. Plus select from advanced options that include brilliant xenon headlamps with an Adaptive Front Lighting System or LED rear lights.

**Xenon headlamps.** The optional High Intensity Discharge (HID) headlamps cast a significantly brighter and longer light beam without causing glare that can distract the drivers of oncoming cars. The colour temperature is set to approximate that of daylight, so reds and greens are more visible.

**Rear combination lamps.** Designed to wrap around the curved i30 body, our rear lamps automatically flash when you brake hard, so vehicles behind you get an extra warning. Bright LED lights that activate a split second faster than conventional lights are available as an option.

**LED daytime running lights.** LED running lights improve road visibility, while adding an elegant style feature to the i30. Safety is also enhanced by giving other vehicles an additional light source for reference.

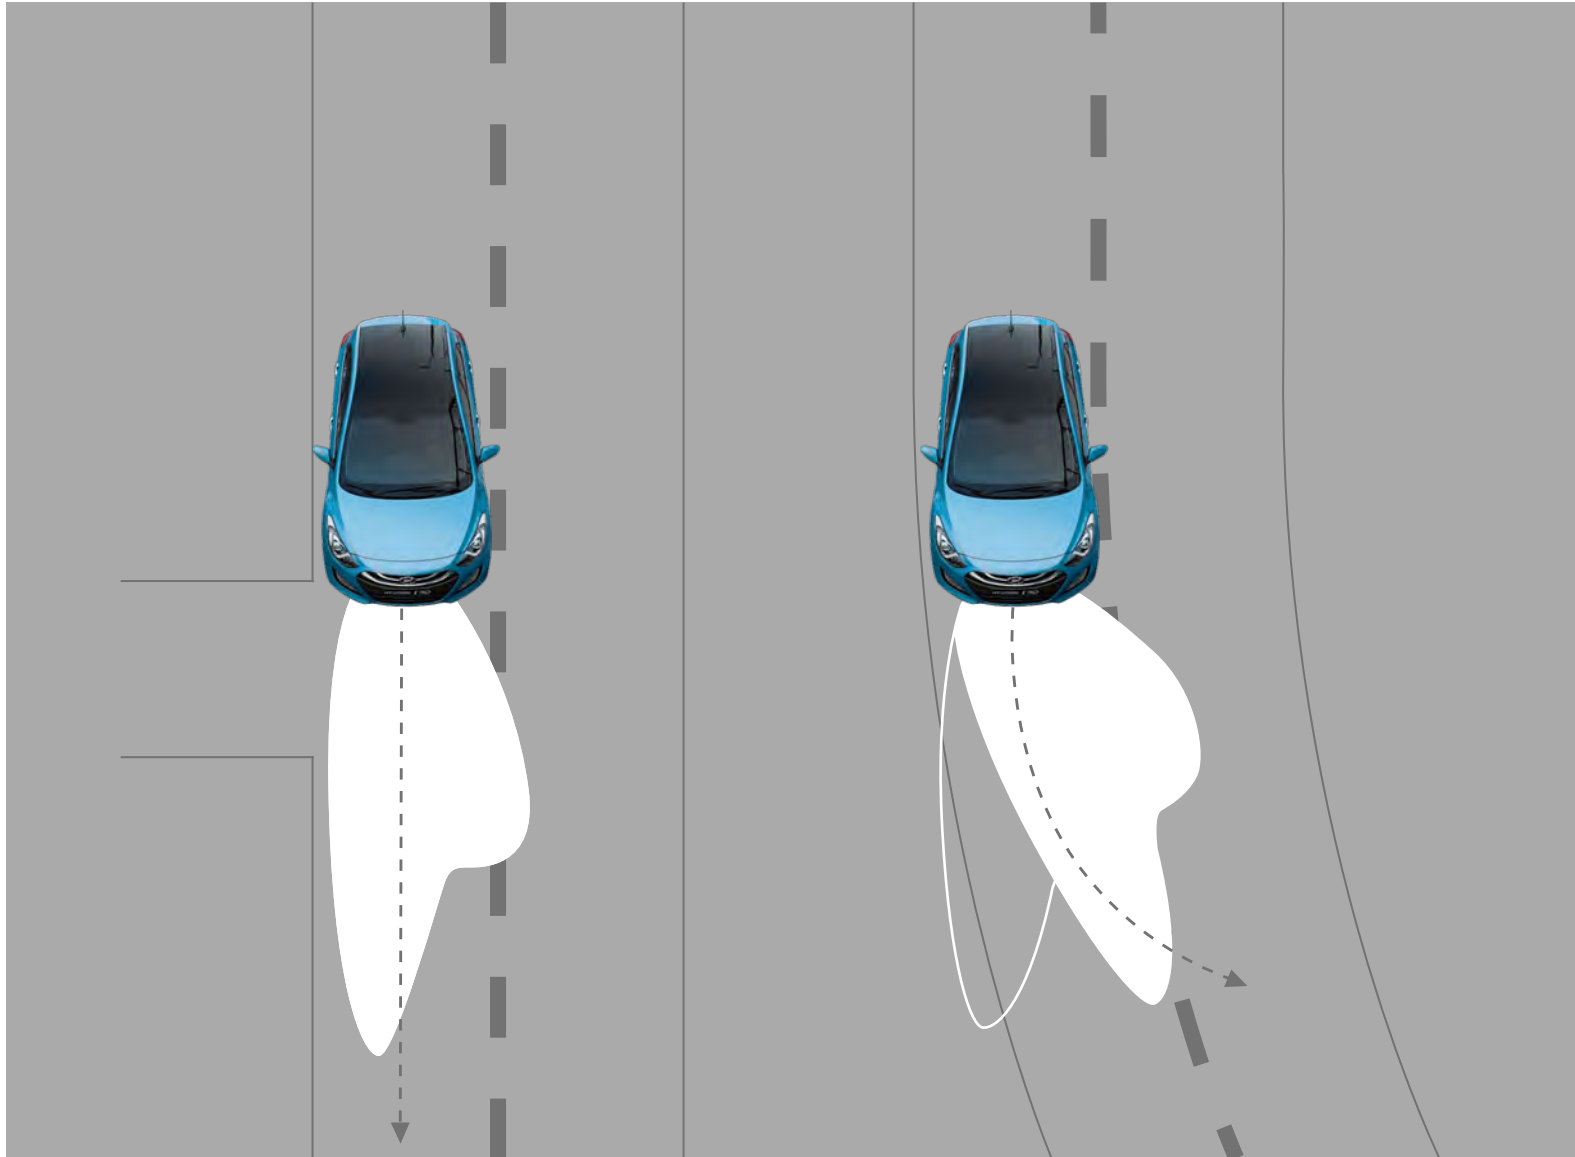

**Rear fog lamps.** Unlike other cars in its class, the i30 offers rear fog lamps on the left and right side of the vehicle. Under each bulb there is a reflector to make you more visible to drivers approaching from behind.

# MAKE EVERY TURN WITH CONFIDENCE.

**Introducing the Adaptive Front Lighting System.** The i30 offers an innovative Adaptive Front Lighting System (AFLS) that increases safety on every type of curve and turn. The system actually bends the light as you turn the wheel, improving visibility and driver response time. AFLS is available as an option with our xenon headlamps.

---

As you drive, AFLS instantly adjusts the light beam in the direction of travel, so a best visibility is guaranteed even on the most curvy roads.

# ADD YOUR OWN FINISHING TOUCH.

The i30 is designed to stand out from the crowd. That extends to the range of exterior options available. Selecting your ideal side trim and outside mirror design is simple. You even have a choice of front grilles, each created to enhance the sleek body lines and accentuate the hexagonal grille shape, a vital part of the Hyundai design DNA.

**Classic grille.** Highly modern in design, our classic grille compliments the curves of the i30 front end, and adds a bold statement to the hexagonal grille shape. A single black bar sweeps from the side body lines above a body-coloured front bumper that follows the contour of the Hyundai badge.

**Sport grille.** Finished in polished chrome, our sport grille adds a striking touch to the i30 and hexagonal grille shape. Two chrome bars extend through and around the Hyundai logo above the front bumper before seamlessly blending into the sleek body lines.

**Body-coloured outside mirrors.** Feature an aerodynamically sculpted housing to minimise wind noise. Options include electric folding, electric adjustment, side repeater, and a heater to clear mist or ice.

**Auto folding mirrors.** Our optional auto folding mirrors automatically fold away when the i30 is switched off. A puddle lamp that illuminates the door areas for safer entry and exit is also available.

**Rear spoiler.** Standard on all i30 models, our spoiler adds aerodynamic efficiency and design flair, including a high mounted LED stop lamp for enhanced safety.

**Chrome door handle.** The fine chrome finish provides a bold accent, while an integrated spotlight activates when the i30 is unlocked by remote or the door is opened.

**Body-coloured door handle.** Designed to perfectly match your i30 body colour for a clean, uniform side profile.

**Chrome side moulding.** Create an elegant touch with high-quality chrome moulding – a perfect compliment to the optional chrome door handles.

# GREATER FLEXIBILITY INSIDE AND OUT.

Enjoy even more room to breathe. The i30 offers several options to increase the amount of interior room and the airiness. From an innovative sliding roof to a versatile full-flat cargo floor, customising your i30 is simple. You also have a choice of optional wheels for added style and road performance.

**Optional panoramic roof.** The twin-panel roof offers true open-air driving fun. At the touch of a switch, the front panel automatically retracts, and a wind deflector activates for passenger comfort.

**High-quality construction.** The roof panels are made of highly durable materials to ensure a lifetime of worry-free use. A fully retractable shade lets you enjoy natural light when the roof is closed.

**17" alloy wheels.** Finished in vivid high-quality chrome, our optional 17" wheels add an athletic look to your i30. The wheels are matched to 225/45 R 17 tyres for increased grip.

**16" alloy wheels.** Exclusively designed for the i30, our optional 16" wheels provide an elegant touch of style. The twin-spoke wheels are matched to 205/55 R 16 tyres.

**Generous cargo space.** The i30 offers 378 litres of cargo room with the rear seats in place. For greater protection as well as convenience, a number of additional options are available, including a luggage power outlet, luggage net, hooks, and an underfloor cargo box that provides even more storage space.

**Optional full-flat floor.** To maximise the amount of available cargo space, the i30 offers the option of an innovative full-flat cargo floor. When folded down, the 60/40 split bench rear seats create a completely level floor which increases the total cargo area to a massive 1,316 litres. The flat floor also makes loading and unloading easier.

# ELEVATED COMFORT FOR PASSENGERS.

Welcome to a new definition of style. The i30 is a bold step forward in interior design and ergonomics. Ample front and rear passenger room matched to an emphasis on high-quality materials create a sense of confidence as well as relaxation. The result is a car that leads its class while delivering more comfort mile after mile.

# ENHANCED TECHNOLOGY FOR DRIVERS.

The i30 is built for the modern world. Slip behind the wheel, and you'll find a host of advanced features for greater comfort and safety. From the TFT LCD supervision cluster to touch screen navigation, the driver has access to a wealth of information on demand, plus extras that include FLEX STEER™, dual-zone air conditioning, iPod/USB connectivity, button start with Smart Key and more.

# MORE INTERIOR DESIGN BY CHOICE.

Tailor the i30 to your fashion sense. A wider range of high-quality fabrics and colours are available to truly make the i30 interior your own. Each is available with a number of standard features, plus a range of options to create a more personal touch.

**Leather front seats.** The optional leather seats feature a soft grain for a rich, warm feel. Height adjustment and seat heaters for comfort in cold weather are included. Electric operation and electric lumbar support for the driver are available as options.

**Safety power window.** Offers convenient one-touch up and down operation, plus an anti-pinch safety feature to prevent accidents or injuries.

**Seatback pockets.** Convenient pockets behind the front seats are standard on all GLS models, or available as an option with the GL. The pockets make it easy to store maps, papers and more.

**Centre armrest.** The centre armrest features a hidden storage compartment for small items. For extra driver comfort, a sliding armrest is available as an option.

**A-pillar covers.** Add an elegant finish to your i30 interior with a cloth cover for both A-pillars. The covers are soft to the touch yet highly durable.

**Front and rear speakers.** All audio systems include at least four speakers as standard – two front speakers positioned for ideal range and two speakers in the rear doors.

**Tweeters.** For enhanced sound quality, the audio system can also include two tweeters, discreetly integrated in the front door panels.

# PASSION FOR DETAIL.

Too much choice is never enough. As an i30 owner, you have a wide selection of interior packages and options, each designed to help you make a personal statement while enjoying greater convenience and style. So your i30 is always as individual as you are.

**Black interior.** Give your i30 a clean and striking look with an all-black interior. Front and rear seats can be finished in your choice of fabric: cloth, cloth and leather, or all leather in a soft grain.

**Blue package.** Available only on GLS models, our Blue package features a seat colour exclusive to Hyundai. Front and rear seats can be finished in leather or a rich leather and cloth combination.

**Centre cup holder.** A double cup holder in the centre console is standard. Select our optional electronic parking brake and the holder includes an extra storage area for valuables.

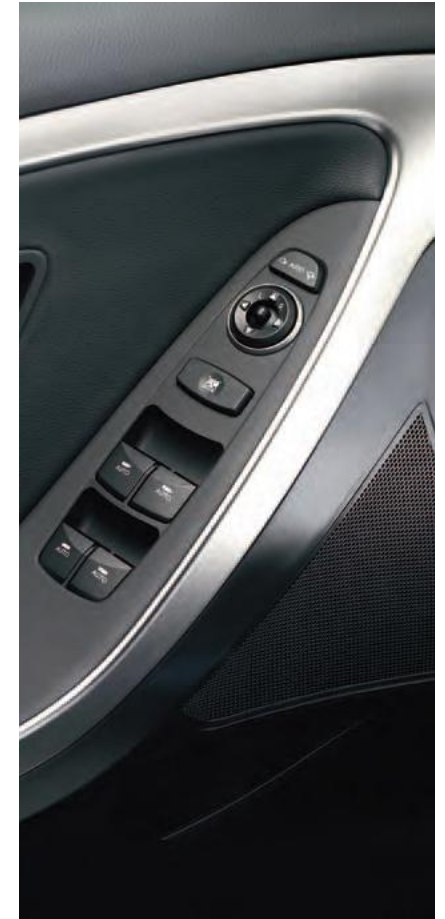

**Chrome door handles.** Featuring a high-quality finish, our chrome handles add a dynamic style element to the i30 interior.

**Spacious glove box.** Built into the stylish curved dashboard is a large glove box offering a generous eight litres of space.

**Beverage cooler.** Add air conditioning to your i30, and the glove compartment includes a special vent to keep your bottled drinks cool.

**Power window switch panel.** Ergonomically positioned for the driver, the panel outlined in fine chrome also includes adjustment controls for the outside mirrors.

# WELCOME TO THE LEADING EDGE.

Take i30 technology even further. The i30 comes equipped with an array of advanced features that provide greater comfort and ease. Yet it doesn't end there. You also have a number of navigation, on-board entertainment, and custom interior options at your command.

**Touch screen navigation.** Features a large 7" colour screen and touch control including voice recognition, Bluetooth™ and a rear view camera with 7" display.

**Climate control.** Enjoy all-season comfort with dual-zone air conditioning, automatic window defogging, and an ioniser that filters dust and pollutants from the incoming air.

**Auxiliary ports.** Features dual USB/iPod ports, plus an auxiliary port to connect or charge other devices. A 12-volt power outlet is also included.

**Electro chromatic mirror.** Optional mirror that auto adjusts to incoming light levels. Also displays the rear view camera image on i30 models with a camera, but without navigation.

**Interior lighting.** A multi-point lighting system includes driver and passenger map lights, plus a roof-mounted sunglasses holder.

**Button start with Smart Key.** Start the engine by pressing a button instead of turning a conventional key. Available only with our Smart Key option.

**Smart Key.** With the Smart Key in your pocket, the i30 recognises "its" driver and unlocks the doors automatically. It also activates button start, so you can start the engine without turning a key.

**6-speed manual transmission.** Available with all i30 engines, our 6-speed manual delivers incredibly precise gear changes and a smooth, confident feel. To further improve fuel economy and reduce CO<sub>2</sub> emissions, an indicator on the dashboard signals the ideal moment to shift, while Hill-start Assist Control prevents rollback when starting on an incline. A leather gearshift cover matched to a leather-wrapped steering wheel is available as an option.

**6-speed automatic transmission.** Each of our 1.6 litre engines can be combined with a smooth 6-speed automatic designed for greater acceleration and fuel economy. The transmission also includes an active eco system for a greater reduction of CO<sub>2</sub> emissions. A chrome surround is standard, with the option of a leather gearshift cover matched to a leather-wrapped steering wheel.

# ENJOY EVERY MINUTE BEHIND THE WHEEL.

Take total control of the i30 cockpit. The i30 is designed to offer its driver optimal comfort and convenience. All controls are ergonomically placed for easy reach, while the TFT supervision cluster provides essential vehicle information at a glance.

Multifunction steering wheel. Finished in soft, supple leather, our optional multifunction steering wheel adds a sporty touch while placing all controls at your fingertips. For improved response, motor-driven power steering is included, with the option of FLEX STEER™ for driver-controlled road feedback. The wheel can be set to the perfect driving position via manual tilt and telescopic adjustment.

**Left side controls.** Arranged on the left of the 3-spoke wheel are all audio controls, plus a remote control for Bluetooth™ with voice recognition.

**Right side controls.** On the right of the 3-spoke wheel are driver controls such as FLEX STEER™ settings, cruise control with speed limiter, and driver display options.

**FLEX STEER™ display.** Each time you select a different FLEX STEER™ mode, confirmation is shown on the driver display. You can view the current mode at any time: Normal mode for city and country roads, Sport mode for faster response at high speed, and Comfort mode for easier parking.

**Trip information.** The display features trip computers to help you monitor driving range, fuel economy, and additional trip information. If your i30 has optional park assist, optical warnings will also appear here.

# THE FUTURE IS CERTAIN.

Your Hyundai i30 is built to the highest quality standards. To ensure your complete satisfaction, we also offer our highest level of warranty protection: the 5-Year Triple Care Service that reflects our commitment to long-term quality assurance and customer care.

## 5-YEAR UNLIMITED WARRANTY

Your 5-year unlimited mileage\* warranty provides bumper to bumper coverage, including powertrain, plus a 12-year anti-perforation warranty. Your warranty is valid in 26 countries across Europe, excluding Russia, Croatia, and Ukraine.

\*Vehicles used for taxi or rental car purposes are covered by a 3-year, 100,000 km warranty.

## CARE & RELATION

The promise of a generous brand that cares about consumer needs, listens to feedback, and is keen on understanding how it can make a difference to people's lives.

## 5-YEAR ROADSIDE ASSISTANCE

Should you experience a breakdown, in your home country or while driving abroad, one call to our free hotline number will send help to you straight away. If necessary, towing to the nearest Hyundai dealer is also included. Free roadside assistance is valid for five years, coinciding with your 5-year warranty period.

## STRESS-FREE

A commitment to improve the quality of the ownership experience over time (more than a quick upfront deal).

## 5-YEAR VEHICLE HEALTH CHECK

In addition to your annual main service maintenance, your Hyundai dealer will perform a check on key elements of your i30, including engine, transmission, steering, suspension, and brake systems, during your 5-year warranty period. If you prefer, you can replace the 5-Year Vehicle Health Check with any other service programme.

## RELIABLE

A reassurance over Hyundai's high quality, aimed at reducing perceived risks and lowering barriers to consideration.

Hyundai is constantly focused on understanding the changing needs of our customers. This is why we carefully listen to your feedback, and never stop the search for new ways to increase your long-term satisfaction as a Hyundai owner.

By extending our 5-Year Triple Care package to cover more essential care needs in vehicle servicing and greater assistance everywhere you travel, we hope to show our commitment, appreciation, and focus on ensuring a reliable premium ownership experience. Together with our dealers across Europe, we look forward to serving you, and exceeding your expectations each time you turn to us.

## NEW THINKING. NEW POSSIBILITIES.

People's expectation toward individual mobility requires more than just a convenient means of transportation. The old understanding of cars has become outdated. A car represents individuals' lifestyles, and it has become an integral part of their lives. At the same time, the automobile industry has experienced seismic change. Hyundai Motor Company has grown rapidly to become one of the largest automakers, backed by world class production capability and superior quality. We have now reached a point where we need a qualitative approach to bring bigger ideas and relevant solutions to our customers. This is an opportunity to move forward, and we have developed a new brand slogan that encapsulates our willingness to take a big leap. Led by our new slogan and the new thinking underlying it, we will become a company that keeps challenging itself to unlock new possibilities for people and the planet.
